DRIVE OF 290 YARDS; BALL SINKS OUT OF SIGHT.

At Homewood, Ill., E. P. Ailis 3d of Milwaukee, Wis., golf champion, recently established a new course record in the qualifying round of the amateur golf championship on the country club course here when he made the first hole, a distance of 290 yards in one stroke. Par on the hole is four.

Allis had a strong wind at his back that undoubtedly aided the drive, but Professional Tom Bendelow, in charge of the tournament, declared Allis made the prettiest and longest drive he ever saw.

SPORTING DATES.

Many Important Contests Are Yet to

Be Decided. Many important championship event in the world of sport will be decided in August and September. Among

them are the following: The New York Yacht club will cruise along the Atlastic coast, and Sept. the fourth international sonder yach contest with the Germans will be sail ed off Marbiehend,

There will be a golf championship for the national open title at the Brookline (Mass.) Country club in mid-September and two grand circuit meets for harness horses. The senior polo championship will occur at Narragansett Pier, followed by the junior and

The national lawn tennis championships at Newport will commence Aug. 18. It is hoped that this meeting will be something of a welcome gathering for the American team, consisting of McLoughfin, Hackett, Williams and Johnson, who are confidently expected to be back by that time with the Davis cup. There is a chance, too, that some of the foreigners may be tempted to come over for revenge for their defeat in the All-England championship tournament and in the Davis cup

American sonder elimination races at Marblehead Aug. 16 will be followed two weeks later by the internation- Chibs al contests for cups for which Presi dent Wilson and Governor Foss stand

The principal event in the golf year will be the open championship a Brookline Sept. 17 and 18, for which Vardon, Ray and Reid of England and Massy and Tellier of France are exnected to make the trip across the Atlantic. In this year's tournament in England and France the American Robert B. Goodhue players, both amateur and professional, made a very poor showing. Perhaps on their native heath our home bred golfers may meet with better luck

BATTING AND FIELDING AVERAGES

Since the last publication of averages of the Islanders some notable hanges in the percentages have taken place. It was natural that Dike and Solomon could not keep up their phenomenal hitting and both have fallen off to a more normal pace for good batsmen, but Dike still boasts of ,367 for an average with the bat for 12 games while Solomon has 353 for nine games, neither a record to be scoffed at. But a newcomer into the ranks has taken first place, Bersan, the new left fielder, who, in four games has hit for .382 Sullivan has also shaded off a little but still travels with the select, his mark being .318. He easily leads in extra hits with five doubles in 17 games to his credit and is the leading run getter with 11. Strangely enough Hammond, who D-----has participated in 29 games, has registered runs only four times and his bat ting mark is down below .200. The following is the complete table of averages

The Bird Catcher.

This is good fun for children, and even those of larger growth have been

known to take part in it. You must first decide which one is to be the bird catcher. The others each choose the name of a bird, but no one must choose the owl, as it is forbidden. All of the players then sit in a circle with their hands on their knees except the bird catcher, who stands in the center and tells a tale about birds, taking care to mention the ones he knows have been chosen

by the company. As each bird's name is spoken the owner must imitate its note as well as he can, but when the owl is named all hands must be put behind the chairs in silence and remain there until the

next bird's name is mentioned. When the bird catcher cries "all the birds" the players must altogether give their imitations of the various birds they have chosen. Should any player fail to give the cry when his bird is named or forget to put his hands behind his chair when the owl is mentioned he has to change places with the bird catcher.

From the summit of Mount Diablo, in California, may be seen a curious phenomenon. Four times a year-once every three months-the sun rises at such an angle that a shadow over ten miles long is thrown on the plain beneath.
